Title: Cybersecurity Tools Overview

Version: 1.0.0   Date: November 2025

Description:

This repository provides learning examples for encryption, hashing, and basic vulnerability testing.

It is intended for educational demonstration of cybersecurity principles.

Contents:

• overview.pdf

• Cybersecurity-Tools.zip

• README.md, LICENSE, version.txt

Tools:

Python 3 | hashlib | cryptography

Learning Goals:

• Implement password hashing

• Demonstrate basic encryption/decryption

• Understand security best practices
